

TUBE ASSEMBLIES

RB Royal is committed to providing you with dynamic tube assembly solutions to solve your challenging design needs.

Benefits of Tube:

- Tight bend tolerances
- Withstands environmental extremes
- Streamlined component routing
- Heat dissipation

We provide a custom solution for your tube applications to reduce the number of leak paths and increase the reliability of your product.

Tube Assembly Capabilities Include:

- Bending
- Endforming
- Swaging
- Cutting
- Brazing
- Welding

Kitting Capabilities:

Tube kitting is another value-added process we offer, which allows you to combine several different parts into one “kit” for quick and easy assembly of your final product.

At RB Royal, we design and manufacture custom hose and tube assemblies as well as precision machined products for applications involving fluid power, fluid transfer and systems integration. Call our experts or log onto www.rbroyal.com to find out how we can help you today.
